WORK EXPERIENCE

"TechLoft Ukraine" 05.2022 - 04.2023 FrontEnd Developer

React.js (hooks, redux toolkit), Axios, Material UI, GitHub

- In my project, I was involved in fixing software bugs and breaking components into smaller components. Specifically, my duties included:

Fixed software bugs: Identified and resolved bugs by implementing necessary fixes, including code modifications, testing, and verification.

Component refactoring: Broke down components into smaller units, improving code manageability and maintainability.

"YURAGRO" LLC 2020 - 2022 Director

"AGROFEED UKRAINE" LLC 2013-2015 Customs broker
